# VisionSpring™

See well. Do well.

## PRODUCT CATALOGUE

Explore our stylish and affordable eyeglasses.

# The wonder of clear vision for everyone

Founded in 2001, VisionSpring's® mission is to increase lifelong earning, learning, safety, and well-being through eyeglasses for people vulnerable to poverty. As of 2023, VisionSpring corrected the vision of more than 12 million people living on less than $4 per-day, unlocking more than $2.6 billion in income earning potential.

## We partner with you wherever you are!

# Your customer's vision is our mission

VisionSpring is the social enterprise accelerating the use of eyeglasses in emerging and frontier markets.

## ELEVATE YOUR COLLECTION
## WITH QUALITY EYEGLASSES.

VisionSpring redefines affordable eyeglasses, offering exceptional value, style, and durability. By providing choice, we respect people's dignity, confidence, and identity. When choosing our eyeglasses, you champion a future where low-income communities have the Dignity of Choice™. Learn more about Dignity of Choice™ on page 46.

## WHY CHOOSE VISIONSPRING EYEGLASSES:

- ✓ Stylish designs
- ✓ Prices for every budget
- ✓ High quality materials
- ✓ Optical grade frames
- ✓ CE and ISO certified
- ✓ Quality guarantee
- ✓ Flexible payment terms

# Implement a program with us

In addition to sourcing your glasses from VisionSpring, we invite you to join us in creating access to vision correction in low-income communities through our innovative programs.

### SEE TO EARN
Increase productivity and income earning potential by bringing screening and subsidized glasses to working age adults in low-income communities.
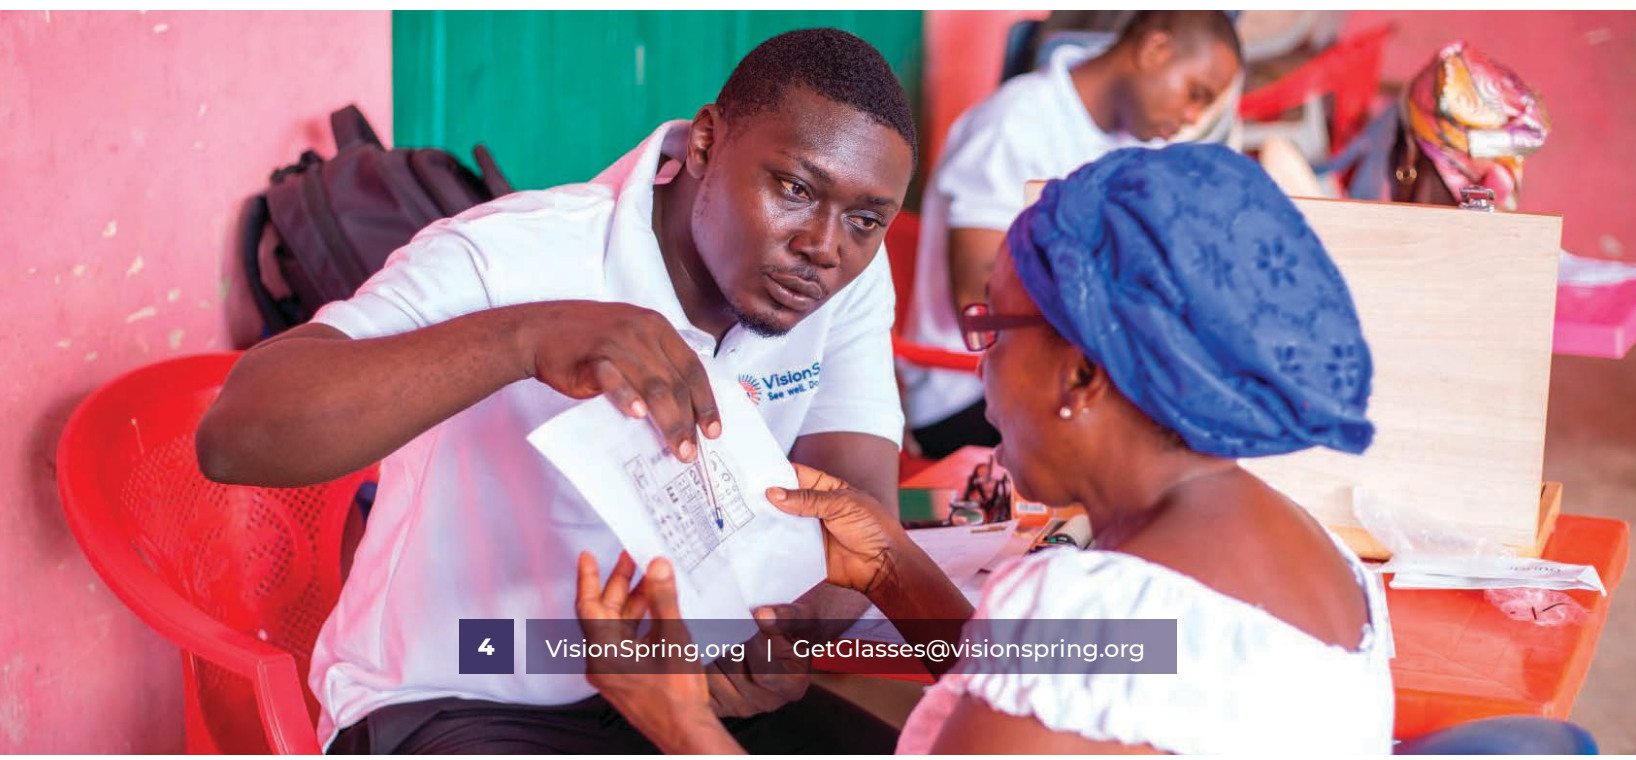

### SEE TO LEARN
Enhance learning outcomes by conducting school-based vision screenings and providing glasses for students and their teachers.

### SEE TO BE SAFE
By bringing vision screening and subsidized eyeglasses to truckers, bus drivers, and other allied transport workers, we improve road safety.

# What to look for when buying eyeglasses

Through surveys in Ghana, Kenya, Nigeria, Uganda and Zambia, you have told us that the following four factors matter most when selecting eyeglasses for your customers and communities.

### DESIGN VERSATILITY
You know your customers: they want to choose from a range of **colorful, stylish, timeless designs** that leave them feeling confident. Your customers want the Dignity of Choice™.

### MATERIAL QUALITY
You offer customers eyeglasses they wear with pride and trust to last. Loyal customers prioritize frames made from durable materials like **TR90** (Thermoplastic Resin 90), **Acetate**, **CP** (Cellulose Propionate), and eco-friendly materials for longevity.

### PRICES FOR EVERY BUDGET
You look to **reach a broader base of customers**. A diversified tiered pricing model unlocks access to both entry-level, budget-conscious customers while welcoming those willing to invest more for higher quality features.

### SUPPLIER RELIABILITY
You value consistent quality and on-time delivery. VisionSpring® eyeglasses meet the highest international standards, ensuring quality and safety. Each product is **CE certified**, and our frames are **ISO certified** reflecting global manufacturing excellence.

# Pop-ins™
## INSTANT EYEGLASSES

## PRESCRIPTION EYEGLASSES IN AN INSTANT

VisionSpring's revolutionary Pop-ins™ technology makes it possible to provide adults and children with the eyeglasses they need immediately after vision screening. By using pre-cut lenses that can be popped into our durable frames, Pop-ins™ enable on-the-spot vision correction.

## BENEFITS

**AVAILABLE IMMEDIATELY**
On-the-spot dispensing eliminates the need for fulfillment from a lens lab, saving customers time and money.

**IN-PERSON FITTING**
Immediate adjustments ensure a good fit and are easy to update with a changed prescription power.

**EASY TO USE**
No specialized tools, equipment or training are necessary.

**A RANGE OF LENS POWERS**
Pop-ins™ come with lens powers ranging from -6 up to +3.

## ORIGIN STORY

In 2012, the VisionSpring team was running outreach programs in remote areas of India with a fleet of vans. Anytime optometrists found people in need of prescription glasses, they would have to order the correct lenses for the frame from a lens lab, and then personally deliver the glasses back to the community for fitting.

**Pop-ins™ were VisionSpring's answer to the need for immediate prescription glasses**. Although there are cases where custom-made lenses are needed, Pop-ins™ make it possible for most people with common refractive error to walk away from a vision screening with eyeglasses on faces.

**Download the Pop-ins™ handbook**

# Dignity of Choice™

# WHY THE DIGNITY OF CHOICE™?

*Because everyone deserves to see well and feel confident.*

When VisionSpring's founder Jordan Kassalow volunteered in Colombia in 1987, he met Noka, a woman from a rural community who took a full day to visit their eye care outreach camp.

"By U.S. standards, Noka was legally blind," wrote Jordan in his book, *Dare to Matter.* "After examining her eyes, however, I was able to find the one pair of used eyeglasses we had that were a 100 percent match for the prescription she needed."

But three days later, Noka returned because her friends and family were mocking her and Jordan understood why — the glasses he had given her were 1950's cat-eye style with rhinestones and Coke-bottle lenses. Not something she would have chosen for herself.

Jordan brought this insight to the founding of VisionSpring, "*[It's] the difference between what it feels like to have to take whatever someone has to give, and having the power to choose for yourself.*"

Since Day 1, we have offered style options for eyeglasses. We proactively seek feedback, and update our designs to match what people want. **By providing choice, we respect people's dignity, honor their identity, and inspire confidence.** And by supporting our partners in adopting stylish, affordable, glasses, we can ensure that everyone has the 'Dignity of Choice™.'
