Our Mission

*Access to affordable eyewear,
everywhere.*

Eyeglasses are a powerful social and economic development tool. We provide affordable eyeglasses, vision screening and training so that non-profits, social entrepreneurs, government agencies, and corporate clients can bring the wonder of clear vision to their communities.

Evidence of impact.

VisionSpring conducts assessments and studies to build the evidence base that underpins our theory of change. Our goal is for low income people to utilize eyeglasses as a means to improve their daily functioning, productivity and income earning potential, which create the possibility of a more prosperous life. Ask us about our productivity proof.

About VisionSpring

We are a pioneering social organisation creating access to eyeglasses for low-income adults and children. Here's what we do and how we do it:

- Annually in India, we screen the vision of more than 27.5 lakh (2.75 million) people and correct the vision of more than 10 lakh (1 million) people.
- To deliver on our eye health mission across 23 states, we partner with more than 500 healthcare facilities and NGOs, 15 state governments and agencies, and 50 corporations and CSR programs.
- Since 2005, we have distributed more than 50 lakh (5 million) pairs of corrective glasses in India, creating more than Rs. 8,100 Crore (\$1.08 billion) in economic impact for low-income households.
- On average, 73% of our users are first-time wearers, meaning they acquire their first-ever pair of eyeglasses through our See to Earn, See to Learn, and See to Be Safe programs.
- We responded to the COVID-19 pandemic and touched over 3 million people with personal protective equipment, oxygen concentrators, and vaccination access and awareness.

See our work featured in *The New York Times*, *The Economist*, *Forbes*, and *The Lancet*.

SEE TO BE SAFE

Promoting road safety and eye health with eye screening camps and eyeglasses for long haul drivers

SEE TO LEARN

Boosting learning effectiveness through school screenings, eyeglasses, and awareness programs

SEE TO EARN

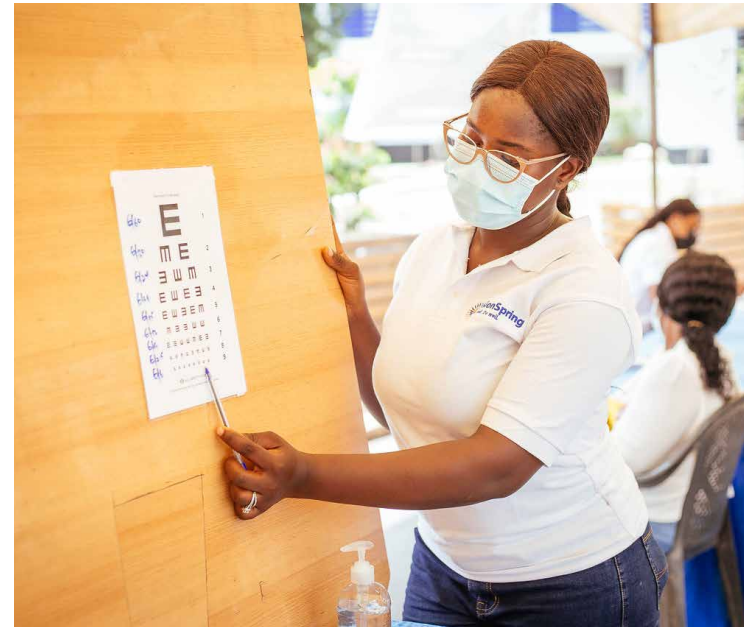

Improving workers productivity by screening and providing eyeglasses

VisionSpring around the World

Since 2001, we've distributed more than 8.7 million pairs of eyeglasses across more than 20 countries.

About our product

DARE to
MATTER
Be the **Change Maker**

This new range of VisionSpring eyeglasses is the culmination of listening to our users and the eyecare institutions who serve them. VisionSpring's new 'Made in India' range is stylish, skillfully crafted, and durable. For the first time in VisionSpring's history, the products featured in this catalogue were developed by our own team - this means we've had complete control over the process. The result is a higher-quality and lower-cost range of eyeglasses than you will find anywhere else. From the moment we started designing each pair, VisionSpring had you and your community in mind. See well. Do well.
